

GLOBAL UNION OF SCIENTISTS FOR PEACE

CERTIFICATE OF DISTINCTION

IS HEREBY CONFERRED UPON

Dr. Maksimenko

All those who know you and know of your achievements are inspired to rise to higher levels of achievement in their own lives. Maharishi University of Management honors the outstanding men and women whose achievements demonstrate this ability to enhance the quality of individual and community life and thereby bring on the rising world consciousness of Heaven on Earth.

Success is the display of superior creativity, energy, and intelligence and reflects a profound command of life's inner potential. Drawing upon the deepest levels of consciousness, the successful individual is able to act in harmony with all the Laws of Nature and gain the support of Nature's intelligence, which brings clarity, strength, and perfection to all thinking and activity, to fully achieve one's noble goals. Through this alliance with Nature, successful individuals grace the world around them with progress and prosperity, and in turn gain all support necessary to rise to ever greater heights of fulfillment in life.

Life in fulfillment is the birthright of every individual on earth. Maharishi University of Management has been established by His Holiness Maharishi Mahesh Yogi so that everyone may claim this birthright, to bring fulfillment to their desires and aspirations and those of society by developing the ability to act in accord with Natural Law. The Maharishi Transcendental Meditation and TM-Sidhi programs, including Yogic Flying, establish individual awareness in the field of pure consciousness, the Unified Field of all the Laws of Nature, and culture the ability to act from there. From this level of consciousness, every thought and action is in perfect harmony

with all the Laws of Nature, and the total potential of one's brain physiology is available for use in daily life. This is the state of Unity Consciousness, enlightenment, a state of perfect balance and integration in which problems are prevented before they arise and life is naturally lived in fulfillment.

When individuals everywhere rise to Unity Consciousness, the whole world family will live in peace and affluence as one Global Country of World Peace. Then all the sovereign nations, and all the traditional cultures and religions of the world will blossom in their fullest dignity. Every country on earth will uphold every other nation and all nations will be allied in perpetual peace and enjoy freedom from all poverty. The Global Country of World Peace was inaugurated by His Holiness Maharishi Mahesh Yogi on October 7, 2000, and on October 12, 2000, the greatest scientist of our time was crowned as its first sovereign ruler with the title of His Majesty Raja Nader Raam. Every peace-loving individual on earth is invited to become the citizen of the Global Country of World Peace.

By providing to students the opportunity to naturally rise to higher consciousness and live the reality of the ancient dictum "Know Thy Self," Maharishi University of Management is developing individuals who will be leading citizens of this coming age of peace on earth. They will usher in a time when the success, progress, and happiness of every citizen will create an ideal society in every nation and a Global Alliance for World Peace among the family of nations.
